### OUR ORIGIN

**A tea story from a far far away magical Island** – The tea you are about to taste has its roots in a very special place. It's specially grown and carefully preserved for you in Sri Lanka. Sri Lanka, a perfectly situated tropical island in the Indian Ocean, is a paradise in its own right. Renowned for its lush landscapes, flora thrives in the country's diverse microclimates, enriched with two monsoon seasons. The country is also home to Ceylon black tea and Ceylon "true" cinnamon. Nature itself has worked very hard to pack this tea with a unique flavor profile and aromatic qualities. We are proud to bring this magnificent plant goodness to you and hope you find one of the best teas ever!
